About Us

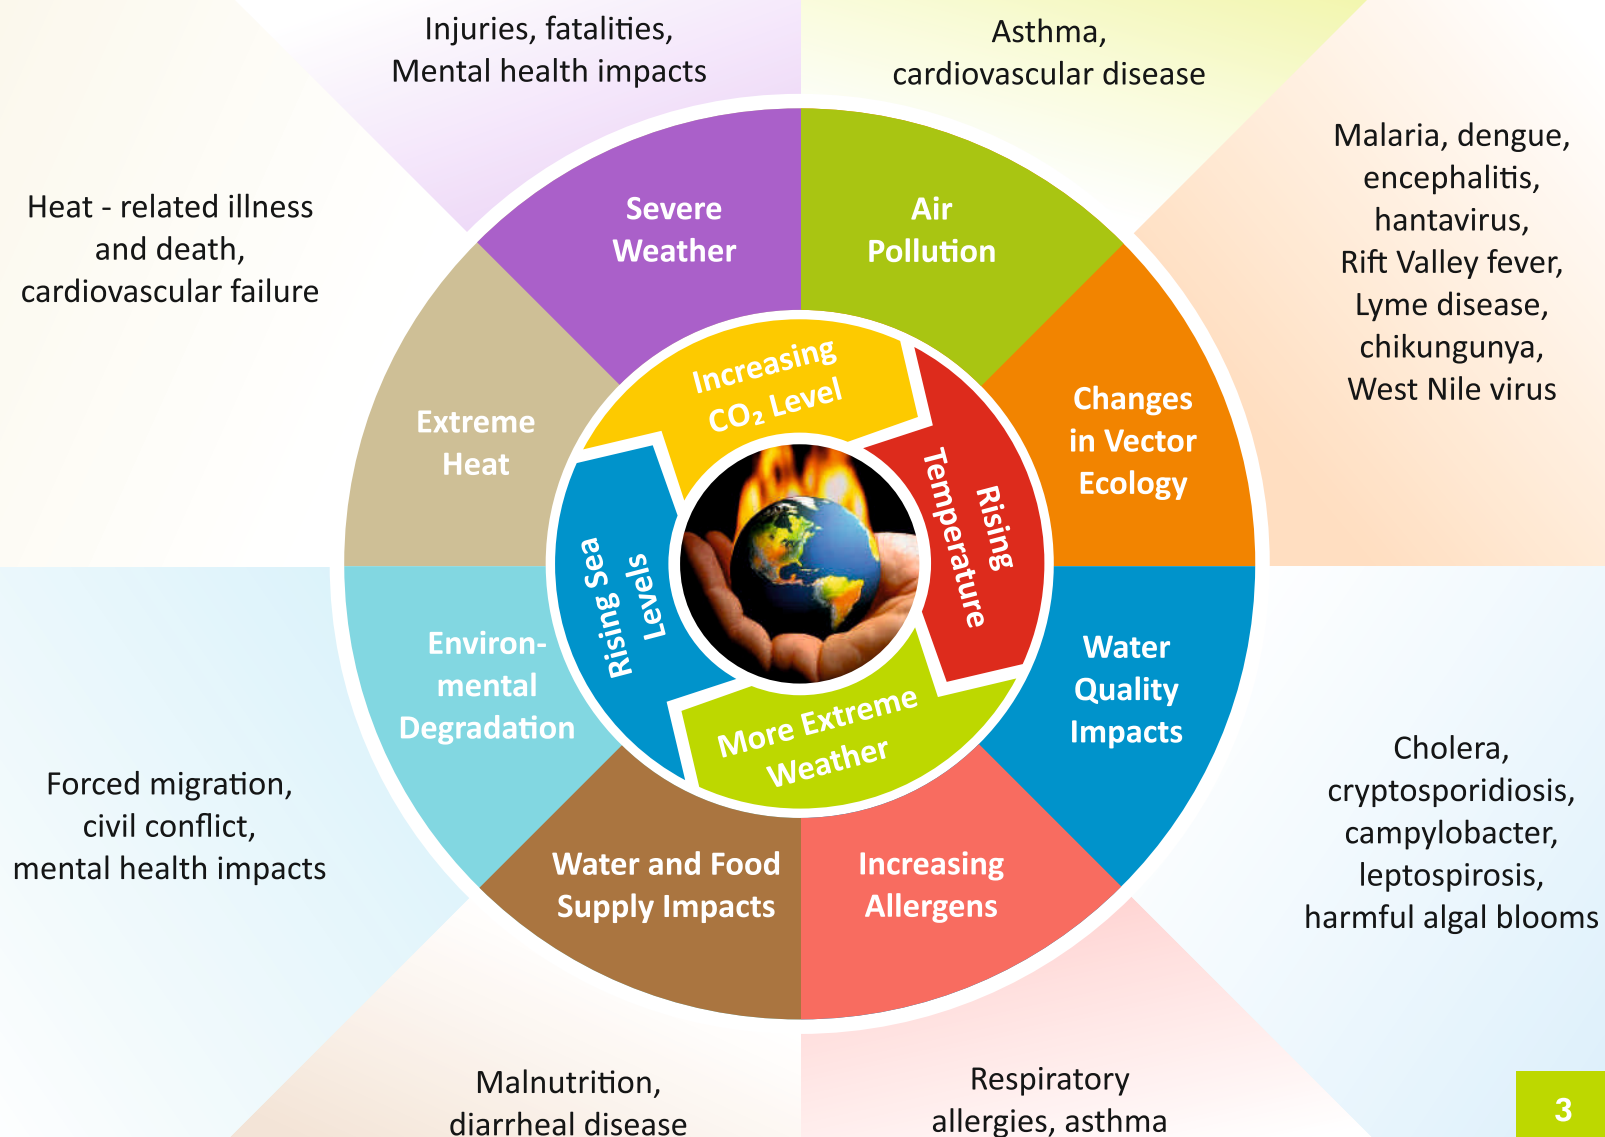

Green Mentoring & Solutions Pvt Ltd. is an Indian Nature driven Company, promoting Spirit of Sustainability through Education in India, UAE, USA, Argentina, and Bangladesh. The company has various other Nature connected areas of business i.e. Clothing, Lifestyle, Energy, Water, Technology, and Transport.

Mr. Virendra Rawat - a Green Schooling Crusader is leading the Company as its Founder Director. He has received many International Awards for his contribution in the area of Education especially gifting – Global Green School concept - Most Affordable & Sustainable Model of schooling.

Mr. Rawat is the Founder of the Green School Concept, which is creating a community of Nature Champions through the Green Curriculum. This community is expected to follow a Nature-Centered lifestyle, which will inspire everyone in everywhere to make this Planet sustainable and livable for the Next Generation.

New Generation Entrepreneurs Gopal Goswami, Ambrish Parajiya & Bhavesh Hakani has joined Virendra Rawat as Co-founder of Green Mentoring & Solutions Pvt. Ltd. to take his initiative to the next level in Worldwide.

Impact of Climate Change on Children Health

Reason, Vision & Mission of Green Uniform

Reason: School Uniform is commonly designed to dress smart and take pride in the appearance. Wearing uniform says that we all are together. Uniform also creates a sense of belonging to the school and a unique identity in the community.

Vision: Uniform is usually designed to improve learning by reducing distraction, sharpening the focus on school work and making the classroom a better place to learn. Nature's an element in that uniform allows students to perform better academically & in all co-curricular activities.

Mission: Uniform should help students to reduce chances of bullying Related to appearance and decrease the risk of violence and theft, instill discipline and help school staff to recognize intruder in the school.

Unfortunate Truth: Most of school uniform opinions available in the market are made from toxic materials including Polyester, Viscose, Acrylic or Poly Cotton mix, which have negative impact on student's health and learning outcome.

Green Uniform

Nature's Shield to protect your Child from the impacts of Climate Change

How strange is that, we buy our kids' clothes for the weekend which are made of natural fabrics, and yet the uniform they have to wear for at least 50 hours in a week at a school, made from polyester, viscose, acrylic or poly-cotton.

Everyone wishes to have the choice of school uniforms made from ethically procured eco-friendly fabrics which have no malicious chemicals, so that our kids can be safe, comfortable, and allergy-free while learning in schools.

「CLIMATE」
「CLEAN」

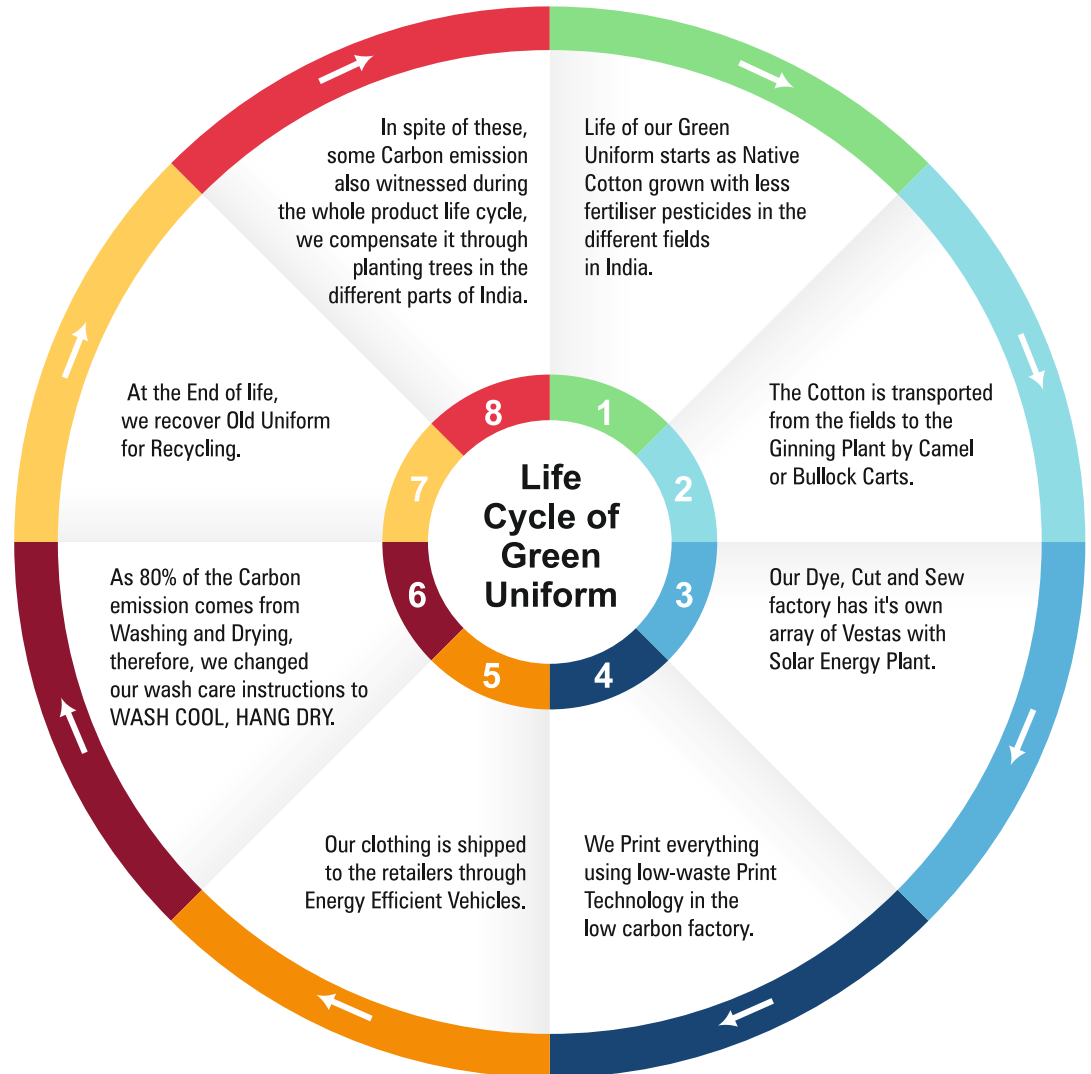

Green Uniform allows
your Child's Skin breathe
easily in all physical
developmental stages

Now we are proud and delighted to offer the exclusively designed Green Uniform made from 100% pure native cotton, made in zero carbon emission facilities, dyed with natural colors having no nasty chemical, makes students feel smart, confident, ethical, natural, comfortable, lovely and soft.

Each and every part of Green Uniform passes through stringent testing standards of shrinkage, wet and dry colorfastness, tear strength, seam slippage, pilling.

LIFE CYCLE OF GREEN UNIFORM

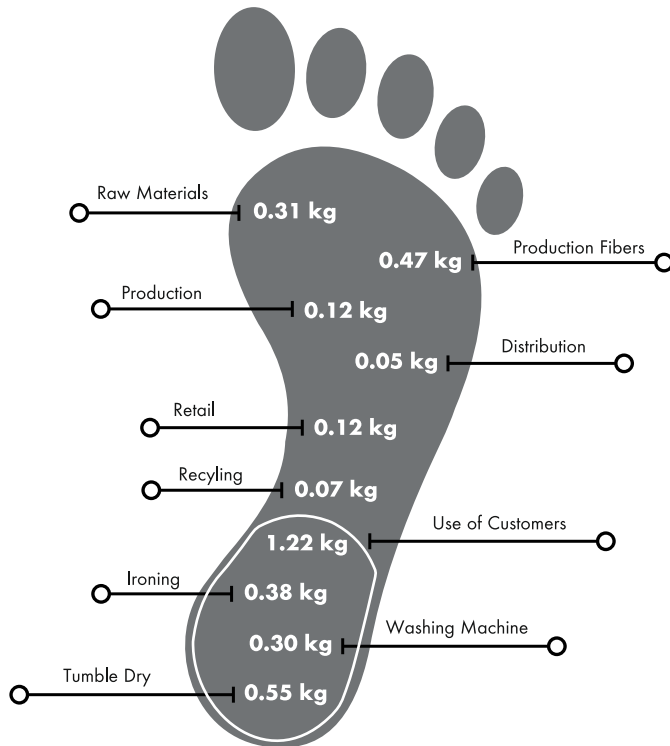

Why our Uniform is Zero Carbon Uniform...?

Zero Carbon Uniform means, the Carbon emissions associated with it have been reduced to net zero right from sourcing to Selling.

The Carbon footprint of Clothing

TOTAL CO₂ EMISSION OF T-SHIRT LIFECYCLE IS 2.35 KG

According to The Carbon Trust, clothing accounts for around 3% of the Global production (or 850 million metric tonnes) of CO₂ emissions per year. This figure includes both the production process and emissions produced after we have bought the clothing, such as when we're washing, drying and ironing.

Our other Green Products

- ▶ **Green School Bag**
- ▶ **Lunch Box Bag**
(made from 100% Jute and Cotton)
- ▶ **Blazers and Sweaters**
(made from Woolen)
