ABOUT US

Green Mentors is UNGA Award winning Nature driven Research organization, bringing Power of Nature into Education through its Global Green Schooling Concept.

United Nation has selected its Green School Concept as Global Solution and placed it on UN Global Innovation Exchange.

Our major focus is on Education and Fashion because these two areas lead us towards building a sustainable Nation.

Green Uniform enhances

REASON, VISION, MISSION

REASON

School Uniform is commonly designed to dress smart and take pride in the appearance.

Uniform also creates a sense of belonging to the school and a unique identity in the community.

VISION

Uniform is usually designed to improve learning by reducing distraction, sharpening the focus on school work and making the classroom a better place to learn.

Nature's element in that uniform allows students to perform better academically & in all co-curricular activities.

MISSION

Uniform should help students to reduce chances of bullying related to appearance, decrease the risk of anger, instill discipline and help school staff to recognize intruder in the school.

**WEARING UNIFORM
SAYS THAT
WE ALL ARE TOGETHER**

INCONVENIENT TRUTH

How strange is that, most of the parents buy their kids' clothes for the weekend which are made of natural fabrics, and yet the uniform they have to wear for at least 50 hours in a week at a school, made from polyester, viscose, acrylic or poly-cotton.

Most of school uniform options available in the market are made from toxic materials including Polyester, Viscose, Acrylic or Poly Cotton Mix, which have negative impact on student's health and learning outcome.

Green Uniform is the Nature's shield to Protect your Students from the impact of Climate Change.
